Epic Concepts can help connect your business. Our patented **EZyCHECK™** software enables 3rd party CRA's to connect to their clients and vendors without having to develop or install any software of their own. They can seamlessly integrate existing clients and vendors using the EZyCHECK software. Also, with its newly enhanced graphics, EZyCHECK now has a new look giving your clients and vendors a modern look and feel. Let us do the work for you, simply '**Private Label**' the system with your own business logo and information and you're clients can take advantage of all the features EZyCHECK has to offer.

New 3.0 Graphics

With its 100% .NET ASP infrastructure, its flexible design makes **EZyCHECK™** excellent for both retail and wholesale environments.

EZyCHECK™ allows you to order, retrieve and deliver employment screening reports and drug test results electronically! Efficiency and productivity made easy. Quick and confidential, resulting in better hiring decisions.

The **Agent Module** helps you organize and track activity with field researchers. “New Request” and “Pending” logs can be sent online, email or via fax in an automated fashion. You have the option of letting agents key in results online, which serves as an excellent tool for employees or subcontractors. Also, your Agents can filter reports by report type, state, and county making it “EZ” for them to organize requests.
